

CAN-BRAC BAND SIGN BRACKET ASSEMBLY

OVERVIEW

The Sign Bracket is a simple and efficient way to create a permanent fixture for road and traffic signs without requiring two bucket trucks. With its easy adjustability, it is easy to display informative signs for road traffic.

The sign extrusion will provide reinforced backing for signs and increased support over a larger area.

FEATURES—CAN-BRAC BAND SIGN ASSEMBLY

- Quick and easy installation
- Full stainless steel hardware
- Fits multiple signal configurations
- Ships fully assembled
