

CAN-BRAC UNIVERSAL SIGN ASSEMBLY

OVERVIEW

The Patented CAN-BRAC Universal Sign Bracket is a simple and efficient way to create a permanent fixture for road and traffic signs without requiring two bucket trucks. With its easy adjustability, it is simple to display informative signs for road traffic.

The sign extrusion provides reinforced backing for signs and increased support over a larger area.

FEATURES—CAN-BRAC UNIVERSAL SIGN

- Ease of installation
- 72 degrees of rotation adjustments
- Vertical or horizontal configurations
- Extrusion is available in precut lengths from 12" to 96"
- Stainless steel hardware and aircraft cable
- Mounts on tenons from 2-3/8" and larger, limited only by cable length
