

# SPAN WIRE HANGER: SUSPENSION CLAMP

## OVERVIEW

---

Our suspension clamp is an add-on product for our popular Span Wire Hanger. It was designed to provide an extra layer of both strength and stability to span wire installations.

It attaches to the stabilizing wire and the suspension wire to create tension. The provided tension creates a signal mount that is extremely rigid and thus ultra-secure

The installation is intuitive and straightforward with easy access for wiring. It is made of cast aluminum alloy and can be painted upon request. The Hardware is fully Stainless Steel.
